FREQUENTLY ASKED QUESTIONS

Q: What services do you provide?

A: The health center provides treatment of minor illness and injury, physical exams, immunizations, health education, confidential services, and laboratory testing. We also provide mental health services including individual counseling and behavioral health groups.

Q: My child already has a doctor. Why should I sign a consent form for my child to be seen there?

A: We are not a replacement for your primary care provider. However, if your child has a minor medical issue while at school, needs vaccines, or need a physical exam, they do not have to miss school and you do not have to take time off work to take them to their doctor's office. We are conveniently located inside the school and can provide the necessary care if we have a current consent on file.

Q: I have other children not attending Fitzgerald, can they be seen there?

A: Yes! We are able to see anyone 10 years old through 21 years old.

Q: We do not have medical insurance; can my child still be seen?

A: Yes! All students can receive care regardless of their health insurance status, legal status and/or ability to pay. You will not receive a bill for services provided. If your family needs health insurance, we can provide insurance application assistance at the health center.

Q: Do I have to make an appointment?

A: Yes, appointments are required for physical exams. Walk-ins are accepted for minor sick visits and minor injuries based on availability.

Q: When are you open?

A: The health center is open year-round including during school summer break. Normal hours are Monday through Thursday, 8AM-noon & 1PM-3:30PM, and Friday 8AM-noon. Occasionally there are additional times we may be closed.
